

Name _____

Percent 5: You now know how to change any decimal number to a percent simply by moving the decimal point 2 places to the right and adding the percent sign.

To change any percent *back* to a decimal number, then, is just the opposite. Simply move the decimal point from where it is, back 2 places to the left and remove the percent sign.

24% becomes .24, 213% becomes 2.13, and .3% becomes .003

Change all percents numbers below into decimal numbers:

- | | | | |
|------|------|-------|-----|
| 1. | 2. | 3. | 4. |
| 24% | .1% | 36.5% | 75% |
| 5. | 6. | 7. | 8. |
| .05% | .06% | 32% | 98% |
| 9. | 10. | 11. | 12. |
| .1% | 104% | 4.79% | 13% |
